Other ideas to support your child's learning.

History and Geograpy

So far this year we have learnt about

- The Stone Age – What was life like for people who lived during the Stone Age. How is life different compared to living in the 21st Century
- Rivers – why are they important, why do people build settlements near rivers, where are the major rivers in the world.
- Where food comes from. Which foods are grown in different countries, how does food get to the supermarket.

Science

So far this year we have learnt about:

- Rocks and Fossils – different types of rocks and how rocks are formed-
- Light and Shadows – how are shadows made, how light travels and different sources of light
- Healthy eating and different food groups
- Names and functions of different parts of the body

- Make a fact file, poster, leaflet, information booklet about any of the topics you learnt about so far this year.
- Use an atlas to help draw maps of where major rivers are located.
- Make a table to show which countries export different food types.
- Make a healthy meal or produce a menu for a café that provides healthy meal choices. Write a recipe card for different meals.
