

# EYFS home learning #2

**This is our school, lets be proud of it!**

Talk with your child about your time at school and ask them about Green Lane. What is important? What can you, and your child, be proud of at Green Lane?

**Our local area is really important. What can your child tell you about Manningham? With your child have a go at drawing and talking about important places around Manningham. Can they talk about their way to school?**

## Number time

### **1 More/1 less**

You can use any everyday objects such as lolly sticks, buttons, coins, feathers, pebbles or anything. Try counting out a group of 9 objects with your child then adding 1 or taking 1 away. Can your child find the new amount? Can they tell you what has happened? Try smaller or larger starting sets. You could even try adding 1 object several times.

Number of the week: **5**

How many different ways using different objects can you make the number **5** with your

Get creative

Collage

Cut up an old magazine or catalogue and stick the pictures together to make new objects or strange creations!

You could also collect everyday objects and just put them together in new patterns and designs.

## Book of the week

'The Gruffalos Child' by Julia Donaldson

<https://www.bbc.co.uk/iplayer/episode/b018nrhm/the-gruffalos-child>

Read or watch the story. What can your child recall, explain or talk about?

## 1 a day-5 activities to do at home

**Monday** - Draw some flowers or draw what you can see out of your window, don't forget to talk about it!

**Tuesday**-Have a party with a favourite toy!

**Wednesday**-Make repeating patterns with sets of different objects (think about size, colour & shape. Can your child spot the pattern?)

**Thursday**-Dress up and act out 'going to work' with your child.

**Friday** - Take a 'selfie' through a toilet roll tube and pretend that you are on the moon. What stories can you and your child come up with?

## On Line activities for you & your child to try together

**Raising Dragons** – online science activities for toddlers and pre-schoolers.

**Ooey Gooley** – long list of preschool science activities

**Little Bins for Little Hands** – for young scientists

**ABC Mouse** – free, early childhood science curriculum
